

# Table of Contents

## Chapter One – Commercial Kitchen Fires

<b>COMMERCIAL KITCHEN FIRES.....</b>	<b>2</b>
<b>The Commercial Kitchen Fire Problem.....</b>	<b>2</b>
Unreported Fires.....	2
Cooking By-Products .....	3
Grease Accumulation Severity .....	4
Grease Buildup on Fire-Extinguishing Systems.....	5
<b>How Kitchen Fires Can Start/Spread.....</b>	<b>6</b>
<b>Where Fires Start.....</b>	<b>7</b>

## Chapter Two – Principles of Commercial Cooking

<b>PRINCIPLES OF COMMERCIAL COOKING.....</b>	<b>3</b>
<b>Exhaust System Configurations.....</b>	<b>3</b>
<b>General Construction Requirements.....</b>	<b>4</b>
Metals .....	4
Clearances to Combustibles .....	5
Type I vs. Type II Exhaust Systems .....	7
<b>Air Movement.....</b>	<b>7</b>
Exhaust Air.....	8
Makeup Air .....	8
Air for Combustion and Ventilation.....	9
Exhaust Flow Rates .....	9
Testing and Balancing .....	10
<b>Fire Containment Theory.....</b>	<b>10</b>
Fire Containment.....	11
Exhaust System Fire Control Concepts .....	11

## Chapter Three – Fire Science

<b>FIRE SCIENCE.....</b>	<b>2</b>
<b>Physics of Combustion.....</b>	<b>2</b>
<b>Fire Tetrahedron.....</b>	<b>3</b>
Fuel.....	3
Heat .....	3
Oxygen (Oxidizing Agent).....	3
Uninhibited Chemical Chain Reaction .....	3
<b>Ignition of Solid and Liquid Fuels .....</b>	<b>4</b>

# *A Guide for Commercial Kitchen Fires*

---

<b>Heat Transfer and Heat Flux</b> .....	<b>4</b>
Conduction .....	5
Convection .....	5
Radiation .....	5
<b>Cooking Oils and Grease Residue Ignition</b> .....	<b>6</b>
Cooking Oils and Spontaneous Ignition Hazards .....	6
Ignition Properties of Cooking Oils and Fats .....	6
Cooking Oil Fires and Extinguishing System Effectiveness .....	8
Ignition of Grease Accumulations in Exhaust Systems .....	9

## **Chapter Four – Codes and Responsibilities**

<b>CODES AND RESPONSIBILITIES</b> .....	<b>1</b>
<b>Codes and Standards</b> .....	<b>2</b>
Codes and Standards Organizations .....	2
National Fire Protection Association.....	3
NFPA Code and Standard Definitions .....	4
Equipment Approval and Listing Definitions .....	4
NFPA 96.....	5
NFPA 921.....	6
International Code Council .....	7
International Mechanical Code.....	7
ICC versus NFPA 96.....	8
<b>Listing Agencies</b> .....	<b>8</b>
Installation Challenges .....	9
Trade Responsibilities .....	10
General Areas of Responsibility.....	10

## **Chapter Five – Cooking Fuels**

<b>COOKING FUELS</b> .....	<b>1</b>
<b>Cooking Methods</b> .....	<b>2</b>
<b>Cooking Fuel Sources</b> .....	<b>2</b>
Gas .....	2
Electric Systems .....	4
Solid Fuels.....	5
<b>Conclusion</b> .....	<b>10</b>

## **Chapter Six – Appliances**

<b>APPLIANCES</b> .....	<b>3</b>
<b>Cooking Sources</b> .....	<b>3</b>
Appliance Codes .....	3
Appliance Docking.....	4

<b>Appliance Models</b> .....	<b>4</b>
Charbroilers Gas.....	5
Charbroilers Electric .....	5
Chain Broilers .....	5
Conveyor Ovens.....	7
Salamander and Upright Broiler.....	7
Griddle Top Cooking .....	8
Woks .....	8
Open Burner Ranges and Ovens.....	8
Deep Fat Fryers .....	9
Noncompliant Appliances .....	12

## Chapter Seven – Hoods

<b>HOODS</b> .....	<b>2</b>
<b>Type I Hoods</b> .....	<b>2</b>
Construction Requirements .....	3
<b>Type I Listed Hoods</b> .....	<b>3</b>
<b>Components of the Exhaust Hood</b> .....	<b>4</b>
<b>Common Hood Designs</b> .....	<b>4</b>
Hood Designs .....	4
Canopy Hoods.....	4
Backsplash Clearance.....	6
Galley (AKA Proximity) Hoods.....	7
<b>Non-Typical Hood Designs</b> .....	<b>8</b>
Eyebrow Hoods .....	8
Pass-over Hoods.....	8
Down Draft Appliance Systems .....	8
Ventilated Ceiling Exhaust.....	9
<b>Noncompliant Hoods</b> .....	<b>9</b>
<b>Water Wash Type Hoods</b> .....	<b>12</b>
Water Wash Hoods.....	12
<b>Filtration</b> .....	<b>16</b>
Primary Filtration .....	16
Baffle Filter .....	17
Solid Fuel Spark Arrester Filters.....	18
Cartridge Filters or Removable Extractors .....	18
Multi-Stage Filters.....	19
Disposable Grease Removal Devices .....	19
Noncompliant Filters.....	20
<b>Hood Dampers</b> .....	<b>21</b>
Fire Dampers .....	21
Access Above Dampered Hoods .....	22
Hood Air Balancing Dampers .....	22
Noncompliant Dampers.....	23

<b>Advanced Technology Hoods</b> .....	<b>24</b>
Energy Management Systems .....	24
Recirculating Hoods or Ventless Systems .....	25

## **Chapter Eight – Fire Extinguishing Systems**

<b>FIRE-EXTINGUISHING SYSTEMS</b> .....	<b>3</b>
<b>Introduction</b> .....	<b>3</b>
<b>General Standards</b> .....	<b>3</b>
UL - 300 and ULC/ORD - 1254.6.....	3
NFPA 96 and 17A Fire-Extinguishing System Requirements .....	4
Locations That Require Protection.....	5
Wet Chemical Fire-Extinguishing Systems.....	6
How Fixed Pipe Fire-Extinguishing Works .....	8
Installation of Fire-Extinguishing Systems .....	8
<b>Wet Chemical Extinguishing Components</b> .....	<b>10</b>
Mechanical or Electrical Systems .....	10
Detection System.....	11
Distribution System.....	16
Automatic Water Sprinklers .....	20
<b>Portable Fire Extinguishers</b> .....	<b>21</b>
Staff Training .....	21
K-Class.....	21
<b>Noncompliant Extinguishing Systems</b> .....	<b>22</b>
Obsolete Wet Chemical Systems.....	22
Noncompliant Manual Pull Stations.....	23
Plugged Piping .....	24
Noncompliant Dry Chemical Systems .....	25

## **Chapter Nine – Ducts**

<b>DUCTWORK</b> .....	<b>2</b>
<b>Installation</b> .....	<b>2</b>
Telescoping and Bell Type Connections .....	3
Exterior Installations .....	4
Long Horizontal Ducting.....	4
Multiple Duct Exhaust Systems .....	5
Listed Duct Fire Dampers .....	6
<b>Clearances to Combustibles</b> .....	<b>6</b>
<b>Protection from Heat (Enclosures)</b> .....	<b>7</b>
Listed Duct Enclosures.....	8
<b>Engineered Systems within Ducts</b> .....	<b>11</b>
Air Pollution Control Units (APCU).....	11

---

<b>Heat Recovery Units (HRU)</b> .....	<b>13</b>
Duct Safety and Monitoring Systems.....	13
<b>Noncompliant Ductwork</b> .....	<b>14</b>
<b>Access</b> .....	<b>19</b>
Duct Openings for Cleaning and Inspections .....	20
Listed Access Panels .....	22
Fire Doors – Access into Sub-Ceilings .....	22
Noncompliant Access Panels .....	23
Access Summary .....	26
<b>Summary</b> .....	<b>28</b>

## **Chapter Ten – Fans**

<b>FANS</b> .....	<b>2</b>
<b>Terminations</b> .....	<b>2</b>
Rooftop Terminations.....	2
Wall Termination .....	3
<b>General Fan Requirements</b> .....	<b>4</b>
<b>Fan Types</b> .....	<b>4</b>
Upblast Fan .....	4
Utility Fan .....	6
In-Line Fan.....	7
<b>Noncompliant Fans</b> .....	<b>7</b>
Unsafe Terminations .....	9
Canvas Collars on Utility Fans.....	9
Down-Blast Fans .....	10
Unsafe Electrical .....	11
Hinging and Access.....	11
<b>Roofing Issues</b> .....	<b>12</b>
Roofing Materials.....	12
Grease Containment Systems .....	12
Inferior Roof Protection .....	13

## **Chapter Eleven – Service Providers**

<b>SERVICE PROVIDERS</b> .....	<b>1</b>
<b>Service Requirements</b> .....	<b>2</b>
The Development of Certification.....	3
<b>Defining Competency</b> .....	<b>3</b>
Trained .....	4
Company Qualified .....	4
Crew Leader Qualifications.....	4
Certified.....	4

# *A Guide for Commercial Kitchen Fires*

---

<b>Appliance Maintenance</b> .....	<b>4</b>
<b>Listed Systems Maintenance</b> .....	<b>5</b>
Water Wash Hood Service Technicians .....	5
Ultraviolet Hoods Maintenance.....	8
<b>Fire-Extinguishing Servicing</b> .....	<b>9</b>
Who is “Qualified” to Service? .....	9
Fire-Extinguishing Check Points.....	10
Frequency of Service.....	10
Non-Compliance Tags.....	11
Fire-Extinguishing Forms.....	12
Poor Suppression Servicing.....	12
Servicing Portable Fire Extinguishers .....	14
Servicing Fire Dampers.....	14
Summary of Fire-Extinguishing System Servicing.....	15
<b>Kitchen Exhaust Cleaning</b> .....	<b>16</b>
Introduction .....	16
Exhaust Cleaner’s Responsibilities .....	17
Inspecting for Cleanliness .....	18
Exhaust Cleaner After Service Follow-Up Reporting .....	19

## **Chapter Twelve – Inspections**

<b>INSPECTIONS</b> .....	<b>2</b>
<b>Pre-Construction Inspections</b> .....	<b>2</b>
Introduction .....	2
The Planning Flow .....	2
Building and Ventilation Component Construction References.....	3
Areas and Components That Require Design and Code Compliance .....	4
Preliminary Plan Review .....	4
Specifications .....	7
Equipment Cut or Specification Sheets .....	7
Shop Drawings .....	7
Supporting Architectural and MEP Documents .....	8
<b>Pre-Occupancy Inspections</b> .....	<b>8</b>
Prior to Occupancy Permit .....	9
Pre-Operational Inspection Checklist.....	9
Start-up and Installation .....	11
<b>Post Operational Inspections</b> .....	<b>12</b>
Introduction .....	12
Non-Compliant Components.....	13
The Kitchen Exhaust Inspection Sheet.....	14
Inspection Sheet Explanation .....	16
Questions to Ask Service Providers .....	29
<b>Inspection After a Fire</b> .....	<b>29</b>

---

---

## **Chapter Thirteen – Methodology of Investigation**

<b>METHODOLOGY OF INVESTIGATION .....</b>	<b>2</b>
<b>Purpose of Fire Investigations.....</b>	<b>2</b>
<b>Scientific Method of Investigation .....</b>	<b>2</b>
<b>Basic Scientific Methodology .....</b>	<b>3</b>
<b>Fire Origin Determination .....</b>	<b>4</b>
<b>Fire Cause Determination .....</b>	<b>6</b>
<b>Legal Considerations .....</b>	<b>7</b>
Preservation of Evidence.....	8
Spoliation .....	9

## **Chapter Fourteen – Conducting the Investigation**

<b>CONDUCTING THE INVESTIGATION .....</b>	<b>3</b>
<b>Introduction.....</b>	<b>3</b>
<b>Planning the Investigation.....</b>	<b>4</b>
Basic Incident Information .....	4
Safety.....	6
Tool Kit .....	7
Historical Documents .....	8
Pre-Inspection Interviewing .....	11
<b>Physical Evidence.....</b>	<b>11</b>
<b>Documenting the Scene.....</b>	<b>12</b>
Photography and Video .....	12
Drawings and Sketches .....	12
Note Taking.....	13
<b>The Fire Scene Examination .....</b>	<b>14</b>
General Approach .....	14
The Exterior.....	14
Documenting Building Fire Protection Systems .....	15
The Interior.....	16
Hand Notes from On-Site Investigation .....	22
Fire-Extinguishing Systems .....	33

## **Chapter Fifteen – Analysis and Reporting**

<b>ANALYSIS AND REPORTING CHAPTER.....</b>	<b>2</b>
<b>Documenting Fire Origin and Cause Responsibility.....</b>	<b>2</b>
<b>The Four Elements of Fire Cause .....</b>	<b>2</b>
The First Fuel Ignited .....	2
The Source and Form of the Heat of Ignition.....	3
The Oxidant.....	3

# *A Guide for Commercial Kitchen Fires*

---

The Ignition Sequence.....	3
Process of Elimination.....	4
Classification of Fire Cause .....	5
<b>Determining Responsibility .....</b>	<b>6</b>
<b>The Human Element.....</b>	<b>6</b>
Human Factors in Commercial Kitchen Ignition .....	7
Kitchen Staff Response to Fire.....	7
Incendiary Fires.....	8
Time Lines .....	9
<b>Selecting the Final Hypothesis (Opinion).....</b>	<b>10</b>
<b>Writing the Report.....</b>	<b>12</b>
Fire Expert Report Outline .....	13
Report Writing Tips .....	16
<b>Summary.....</b>	<b>17</b>

## **Chapter Sixteen – Interviewing**

<b>INTERVIEWING.....</b>	<b>1</b>
<b>Introduction.....</b>	<b>2</b>
<b>The Interview .....</b>	<b>3</b>
<b>Word Interpretations.....</b>	<b>3</b>
Fire-Extinguishing Components.....	3
Exhaust System Components .....	3
<b>The Investigative Interview .....</b>	<b>4</b>
Questions for Fire Officials.....	4
Questions for Fire Investigators .....	5
Background Questions for Restaurant and Kitchen Management .....	6
Questions for Kitchen Staff.....	8
Specific Appliances.....	9
Questions for the Exhaust Cleaning Company.....	11
Questions on Fixed Pipe Fire-Extinguishing Systems.....	14
Other Trades.....	20
Summary .....	20

## **Chapter Seventeen – Case Studies**

<b>CASE STUDIES .....</b>	<b>2</b>
<b>Case #1 .....</b>	<b>2</b>
<b>Case #2 .....</b>	<b>3</b>
<b>Case #3 .....</b>	<b>4</b>
<b>Case #4 .....</b>	<b>4</b>
<b>Case #5 .....</b>	<b>6</b>

Case #6 ..... 8  
Case #7 ..... 9  
Case #8 ..... 12  
Case #9 ..... 13  
Case #10 ..... 14  
Case #11 ..... 16  
Case #12 ..... 17  
Case #13 ..... 20  
Case #14 ..... 21  
Case #15 ..... 26  
Case #16 ..... 28  
Case #17 ..... 30

## **Chapter Eighteen – Appendix**

**APPENDIX** ..... 2  
**Articles** ..... 2  
    NFPA 921 Guide for Fire & Explosion Investigations, 2011 Edition ..... 2  
    Oklahoma State Senate Adopts Resolution Urging the use of NFPA 921 and the Scientific Method ..... 4  
    Ignition & Combustion: Some Scientific Principles ..... 5  
    Investigation for Subrogation ..... 13  
    Excerpts From Scientific Protocols for Fire Investigation ..... 15  
    Must Fire Investigators Prepare a Written Investigation Report? ..... 20  
**References** ..... 21  
**Appendix A – References** ..... 22  
    A.1 Technical References ..... 22  
    B.1 List of Abbreviations ..... 24  
    C.1 Definitions ..... 25  
**Resources** ..... 39
